EXTRA FLAT

SELF LUBRICATING

All pivot points made with self lubricating bushings for long life.

AUTO LEVELLING

Hydraulic levelling system by means of a patented synchronisation device assures constantly levelled lifting platforms regardless of weight distribution.

MECHANICAL LOCK

Mechanical locking device with automatic engagement and pneumatic release, ensuring maximum safety when lift is in standing position.

RAV 535 / 7,000 lbs - Minimum height 3,9"

RAV 540 / 9,000 lbs - Minimum height 5,3"

The minimum height from the floor guarantees easy and rapid positioning of the vehicle on the lift. The limited space required by the lift improves safety of the working area. Ideal for mechanical repairs, tyre shops and rapid fit facilities. It is also a good choice for service reception areas.

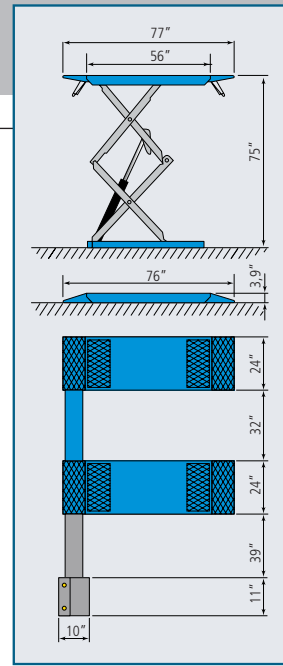

- No cross rails or torsion bars between lifting platforms (for maximum accessibility in the working area).
- Controlled speed during initial lifting and final lowering phase.

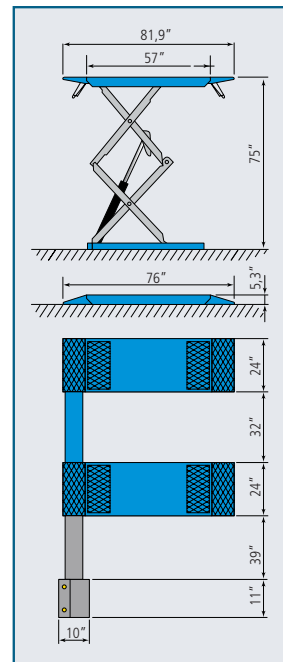

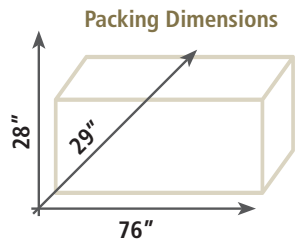

RAV 535
7,000 lbs
Minimum height 3,9"

Extra low version.
 The lift is an ideal choice for low ground clearance vehicles and in particular for extra low spoilers.
 The lift is recommended for vehicles with variable height, or damaged suspensions.

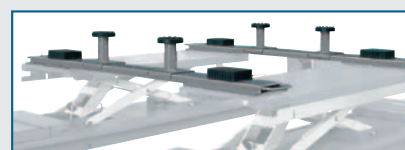

RAV 540
9,000 lbs
Minimum height 5,3"

High capacity model
 with longer lifting
 plates.

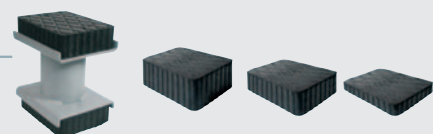

OPTIONS

S 505 A2 (2 x kit)
Cross members
 To provide safe wheel free lifting of vehicles with narrow lifting points.

Set of pads (4 x kit)

- S 505A1 H= 8"
- S 505A5 H= 4 3/4"
- S 505A6 H= 1 1/2"
- S 505A7 H= 3/4"
